City Center Merger Announcement

To: City Center Members

From: City Center Credit Union

SUBJECT: An exciting new future for City Center Credit Union

Hello Members,

City Center Credit Union regularly receives requests to provide additional services to our members, such as new locations and a more user-friendly online banking system. We take this feedback seriously and have done much to provide what you need for your financial well-being.

As we have been working towards providing more services, such as bill pay, remote deposit, and cutting-edge mobile banking, the expenses have quickly been adding up. In order to better serve you and to stay on top of the ever-changing needs of digital security, we have come to the decision that a merger is the best course of action.

After discussions with several local financial institutions, we decided that America First Credit Union best aligns with City Center's goals. Merging with America First will allow our members to take advantage of the many benefits they have to offer, such as a well-managed infrastructure, state-of-the-art services, and multiple branches across Utah, Idaho, Nevada and Arizona.

We will strive to make the merger and transition to America First as seamless as possible and will notify you with merger details as they become available.

You should continue to use your City Center checks, debit and credit cards, City Center branch location, ATM locations and online banking until your account has been completely transitioned to America First. You may also contact your credit union by using existing City Center telephone numbers, email addresses and website. The City Center branch will remain open with the same hours and the same friendly employees with whom you are familiar.

There will be more details to come, but it has truly been a pleasure to serve you these past 11 years and I look forward to a continued relationship through America First—perfect vision through 2020 & beyond!

Scott Johnson
CEO
